

## **ABOUT US**

You are looking for a manufacturer for your individual solutions? So you found the right address here.

For our costumers in the fields of communication technology, mechanical handling, engineering, measurement technology and heavy, glass- or building industry we specialized in fabrication of individual and special tools and constructions.

We like to execute developing- and construction challenges on the base of your demands as well as planning and realization of this projects to the point of mounting and starting. We also offer production of batches and variants.

Our certification Class E according to DIN 18800-7 (see our certificate as attached PDF-file) is the base to perform carrying steel parts. Internal manufacturing methods and well arranged connections to outsourcing partners offer a great variety of products and features.

We like to meet new challenges – please make your request!
